### Meeting of staff council meeting held on 21.01.2011

An emergent meeting of the staff council was held on 21.01.2011 at 11.30 a.m. in the staff room. The chair informed the house that Dr. Anju Arora would record the minutes in place of staff council secretary Dr. Jagneet Kaur Anand as the latter was on leave. The agenda was to approve the workload of the Department of Physics and Electronics as the intake in the current year exceeded the sanctioned strength in B.Sc.(H) Physics 1<sup>st</sup> semester. The chairperson suggested that a relevant committee be empowered to look into the details of the said anomaly alongside financial and infrastructural implications of the same and formulate guidelines for the same. It was suggested and approved in the council that a temporary arrangement be made presently, as submitted by the Department of Physics and electronics in their departmentally approved workload. This arrangement would continue till June 2011 and may be reviewed later, taking into account the actual number of students on roll then as against the sanctioned. Two members of the concerned department, Dr. V.K. Verma and Dr. A.K. Arora, recorded their dissent.
